### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

On page 1, under the heading "Cross-Reference to Related Applications" the sentence which follows has been changed to -- This application is a divisional of Application No. 09/427,235, filed October [25] 26, 1999, now abandoned, the disclosure of which is hereby fully incorporated by reference herein.--

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to suggest the claimed method of making a multi-well test plate for assaying liquid samples.

As noted in Applicant's arguments filed on 8/29/05 Turner teaches an adhesive almost an order of magnitude greater than the claimed adhesive thickness (page 8) and Turner teaches the need for a relatively thick adhesive layer and teaches away from an adhesive layer of the claimed thickness (page 12).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
